ACTIVITIES TO ENHANCE YOUR DAY

We can organise competition holes such as nearest the pins, longest drives and straight drives which add to the atmosphere and excitement of your golf day.

Another fun activity is the fastest drive which involves a police radar set on a hole with each player asked for a small donation as they pass the hole. Each player's driver speed is recorded and notices are handed out for infringements such as "murdering the game of golf" and "dangerous driving".

Putting competitions are also an easy way to create a bit of fun and enhance the competitive atmosphere. During registration have your guests play a simple or more strategic competition to practice their putting before tee off.

Golf clinics can be arranged through our golf shop. One of our fully trained PGA Golf Professionals can conduct lessons prior to play, be placed on a "beat the pro hole" or join one of your groups. Speak with your coordinator for more details and prices.

CARBON OFFSET PROGRAM

IGC is in a unique position to create and manage a local carbon offset program. We are a keen supporter of the environment and are actively involved in making a significant contribution to assisting and improving our local environment for our members and the local community.

In 2006 the Club commissioned a Landscape Master plan and has committed to a 5 year implementation program that will see a further 20,000 trees planted on the property. We're also committed to reducing our town water consumption which we have reduced by 65%, saving 44,000L per day. We also use 300 million litres of treated effluent water per year .

In 2007 we commenced a tree planting program, planting 2000 trees. 676 of these trees is sufficient to offset the carbon emissions of the course maintenance equipment fleet. Listed below is a way you can contribute to our local carbon offset program and make your event at IGC carbon neutral.
