

Alphitonia Mistletoe (*Amyema conspicua*) This aerial parasite can easily be observed from the Blue 1 fairway when its host trees, the Crape Myrtles, lose their leaves in the Winter. A close-up of the leaves & flowers is provided below.

Bougainvillea (*Bougainvillea* cultivars) This iconic South American climbing shrub has been planted all along our road boundary fence and in adjacent gardens. A selection of colours presented here is only a small example of the range!

Bower Vine (*Pandorea jasminoides*) This flowering vine was planted (pJW) on the boundary fence behind the Red 5 green, with flowers close-up below.

Bronze Mistletoe (*Amyema miquellii*) This mistletoe is commonly observed growing on the Queensland Blue Gums along the banks of the Brisbane River.

Burny Vine (*Trophis scandens* subsp *scandens*) This flowering vine is growing on a large fig tree on the LHS of Gold 5, near the River.

Cockspur Thorn (*Maclura cochinchinensis*) This thorny native flowering vine grows on the Riverbank on the RHS of Blue 3, with thorn, leaves & young flowers close-up below.

Golden Mistletoe (*Notothixos subaureus*) Small, dense aerial mistletoes with a yellowish-green colour can be seen on the old Weeping Bottlebrush on the LHS of Gold 7 tee-block.

Golden Pothos (*Epipremnum pinnatum*) This South Pacific climber has been planted in the Clubhouse surrounds.

Grey Mistletoe (*Notothixos incanus*) Small, dense aerial mistletoes with a silver grey colour can be seen on the Weeping Bottlebrushes on the LHS of Gold 7 tee-block with closer image below.

Monkey Pod Vine (*Parsonsia straminea*) This self-sown SEQ native climber has wind-borne seed that result in a widespread distribution. The fruit pods are illustrated below.

Native Sarsparilla (*Hardenbergia violacea*) This SEQ native twiner was planted around the Red 9 men's tee-block, with flower close-up below.

Orange-flowered Mistletoe (*Dendrophthoe glabrescens*) A low-growing example of this mistletoe can be seen on the Weeping Bottlebrush behind the Gold 4 men's tee-block, with flowers below.

Red Philodendron (*Philodendron* cv. 'Rojo Congo') This cultivar climber was planted in the Clubhouse surrounds.

Star Jasmine (*Trachelospermum jasminoides*) This scrambling climber was planted in the drinking fountains to beautify them and use spare water. It also forms a hedge with Yellow Iris and Golden Duranta between the wedding lawn and car park.
